

# RAIN BARREL/COMPOST BIN REIMBURSEMENT FORM

The Rain Barrel/Compost Bin Reimbursement Program is designed to help reduce residential water consumption through the conservation of rain water and roof runoff. Rain barrels are a cost effective alternative to using potable water for watering yards and gardens. Rain barrels function by collecting roof runoff from gutters and downspouts and by storing the water for future use. In addition to water conservation, rain barrels help reduce storm water runoff to streams and storm sewer systems, and help reduce peak water demand during summer months. Compost bins keep waste out of landfills and can provide fertilizer as a re-use.

This program encourages residents to purchase rain barrels/compost bins to be used during lawn and garden watering activities. Residents who wish to participate in the program should be aware of the following program parameters:

1. Program dollars are distributed as a reimbursement to residents after the confirmed purchase of a rain barrel and /or compost bin.
2. A paid receipt with the attached form must be submitted to the Village showing proof of purchase prior to reimbursement.
3. The amount of reimbursement for a rain barrel/compost bin is 50% of the purchase price, excluding sales tax, delivery, and any accessories, not to exceed \$75/per item (max 2)
4. Each household may only participate in the program twice.
5. Questions? Contact the Village of Libertyville at (847) 362-2430.

## RAIN BARREL/COMPOST BIN REIMBURSEMENT FORM

Name (check to be made to): \_\_\_\_\_

Address (must be located in corporate limits of Libertyville): \_\_\_\_\_

\_\_\_\_\_
