

Sec. 4-45. - Classification; fees.

(a) Licenses issued under this division shall be divided into classes as follows:

(1) **Class A bar license.** Class A bar licenses shall authorize the retail sale of alcoholic liquors for consumption on the premises, as well as other incidental retail sales of such liquor (such as in the original package and not for consumption on the premises and not to be sold individually), and the incidental sale of food to patrons of the establishment for consumption on the premises. Additionally, beer may be sold in a refillable container or growler but not for consumption on the premises. Class A licenses may only be issued to and/or retained for use by establishments that are principally engaged in the sale of alcoholic liquor for consumption on the premises.

(1.5) Class "A-1" license (sports and recreation facilities). A Class "A-1" license shall authorize the retail sale of alcoholic liquor on the premises only to sports and recreation facilities, subject to the provision that a floor plan be submitted prior to issuance of the license, food service must be available, and that no exterior signage advertising alcohol or the tavern/bar name be permitted. Alcohol may only be served to patrons participating in the recreational activity.

(2) **Class B restaurant and bar license.**

- a. Class B restaurant and bar licenses shall be adjunct to the operation of a restaurant that is operated on the terms and conditions hereinafter specified. Each such license shall authorize the retail sale of alcoholic liquor for consumption on the premises where sold and the retail sale of alcoholic liquor in original packaging, not for consumption on the premises and not to be sold individually. Additionally, beer may be sold in a refillable container or growler but not for consumption on the premises. The combined floor area devoted to alcohol sales shall not exceed twenty-five (25) percent of the total floor area devoted to eating and drinking by patrons at the establishment. Such a license may be issued to and/or retained for use only at an establishment which:
 1. Is in fact operated principally as a restaurant.
 2. Offers its patrons typical full and complete meals, including a full dinner menu, and where alcoholic beverages will be available for service with meals.
 3. Full meal service may cease no earlier than two (2) hours before the establishment closes.
- b. No such license shall be issued to or retained for use by an establishment in which the facilities for foodpreparation and food service are not principally those of a restaurant (at least seventy-five (75) percent of the total floor space for use by patrons to eat and drink at the establishment is devoted to food sales). Without limiting the generality of the foregoing, limited food service, such as provided by fast food restaurants which provide drive-through services, etc., does not satisfy the requirements for this license classification. Any calculation of area devoted to alcohol sales and eating and drinking shall not include areas devoted to food preparation, storage or restrooms or other non-public areas. The calculation utilized to determine the area devoted to alcohol sales, shall be comprised of any area which is separated from the main dining room in which a bar and tables for patrons of the bar is located, or if no separate area exists, the area devoted to alcohol sales shall be comprised of the bar, including bar seating and drink preparation area and shall also include all seating areas principally intended for use by bar patrons. All applications for a Class B restaurant and bar license shall include a scaled drawing of the premises for which the license is sought which identifies and calculates the total floor area within the premises, as well as floor area devoted to food sales and floor area devoted to alcohol sales.
- c. The holder of a Class B restaurant and bar license may sell and serve alcoholic liquor at special events which are held off of the licensed premises provided that the license holder has applied for and has obtained a Class H License and further provided that all off premises alcoholic sales are made in conformity with the requirements of such Class H license.

(3) **Class C restaurant and service bar license.**

- a. Class C restaurant and service bar licenses shall authorize the operators of restaurants to sell and serve alcoholic liquor for consumption only with meals on the premises where sold, and to have service bars only. A
